THE ULTIMATE HEAVY DUTY SOLUTION

## Is Your Flooring Built For The Harsh Australian Climate?

Australia's Oceanic Climate is characterised by cool and wet Winters followed by hot, dry and humid Summers. Under these unstable conditions, traditional floor coverings are NOT built for these environments resulting in many issues.

StoneFloor is an innovative, high quality product engineered specifically for the Australian Climate. A New style of Living.

More than just a product

## WHY YOU SHOULD CONSIDER STONEFLOOR?

### Built to Last

Not many products out there can cope with the harsh Australian climate, from the roaring summers to the frosty winters. StoneFloor offers minimal expansion and contraction.

### Built to Outperform

With 20 years of Industry Experience and constant research and development, StoneFloor is the ULTIMATE product. It has undergone extensive testing to ensure it outperforms all other flooring products out there.

### Built for a Hassle-Free Lifestyle

Let StoneFloor redefine the way you live for you and your family. With the benefits StoneFloor can offer, worry less about your flooring.

#### Superior Thermal Stability

Able to withstand extreme levels of sunlight with minimal Expansion and Contraction. The perfect product for the Australian Climate.

#### 100% Waterproof

Accidents do happen. Say goodbye to headaches with StoneFloor. Our products are 100% Waterproof, not water-resistant.

#### Stain and Scratch Impervious

StoneFloor is all about a head-ache free lifestyle. Heavy-duty and built to last. Built to meet both residential and commercial building standards. In addition, our special surface treatment makes it anti-skid.

#### Sound Absorbing

Solid 8mm Thick. StoneFloor is not just only tough, it excels in absorbing sound. Making it perfect for apartments. Say goodbye to strata issues and complaints.

#### Easy to Clean

Being 100% Waterproof, cleaning and maintaining StoneFloor is a true ease. Clean with just a wet mop and keep that new look for many years to come.

#### Extremely Low Formaldehyde Emission

With our technologically advanced manufacturing process, StoneFloor achieves extremely low formaldehyde content, making it safe for you and your family.

Redefining the way you live
