Lavanda Oak

The **Lavanda Oak Collection** captures the timeless beauty of European oak through a modern engineered design that balances elegance, strength, and versatility. Each board is brushed to enhance the grain, adding warmth and texture to interiors from classic to contemporary. The result is flooring that radiates sophistication while delivering the practicality needed for everyday living.

Lavanda Oak celebrates individuality, with natural variations in tone and knots ensuring no two boards are ever the same. Finished with a premium **UV lacquer ultra-matte coating**, the collection offers lasting protection while maintaining a soft, understated look underfoot — a perfect foundation for a wide range of design styles.

Built with a **multi-ply core**, the collection provides exceptional stability, even over radiant heated systems. Enhanced with Sherwin-Williams coating technology, it achieves superior scratch resistance and long-term performance, meeting the highest standards for both residential and commercial spaces.

Completing the range, matching trims, stair nosings, and accessories provide a seamless flow across any project. With its refined craftsmanship and enduring quality, the Lavanda Oak Collection stands as a confident expression of elegance in every detail.
