# Clever features list

Clean-grade timber flooring is a popular choice for those seeking a clean, uniform look with minimal natural features like knots and gum veins. It offers a sophisticated aesthetic while still showcasing the natural beauty of timber. This grade is often favoured for modern and minimalist interiors, but can also be a good fit for traditional spaces.

Part of the beauty of wood is the naturally occurring unique features, such as variety in colour, texture and grain. Real timber flooring means that there will be no repeating patterns anywhere in your room, with each board unique.

Timber Solutions are suitable for families as they are able to withstand spills that don't sit for long periods of time. Damage can be avoided by wiping up spills quickly.

The wear layer on our Timber Solutions consists of seven layers of UV Cured Lacquer. This protective layer can be sanded and recoated.
