SPC FLOORING

Why Decoline?

As an industry pioneer,
Decoline always brings you better solutions for your flooring.

Sound Insulation

The thicker core of Decoline SPC Flooring makes it superior when it comes to sound insulation. The thickness helps to absorb the sound, so it's quieter when walking on these floors.

Eco-friendly

Not only it is formaldehyde-free, but there is no plasticiser inside.

Stability

The thick and dense core makes it more resistant to expanding and contracting from moisture exposure and extreme temperature fluctuations.

Durability

Decoline SPC flooring is resistant to scratches and stains. It holds up well to wear and tear even in high-traffic areas of the home. If you're concerned about durability, 7mm & 8mm Decoline rigid planks are the answer.

Waterproof

Decoline SPC flooring features an entirely waterproof core. You can lay it in areas of the home where hardwood and other moisture-sensitive flooring types are not typically recommended, such as laundry rooms, basements, bathrooms, and kitchens.

Foot Feel

With a 7&8mm thickness, it feels more stable and cushioned when walking on it. That thickness also helps to provide insulation to keep the floors warmer.

Easy Installation

Decoline SPC flooring is made to be installed on top of just about any type of subfloor or existing floor as long as it's flat and sound. You won't have to deal with messy glues since the planks easily attach to one another to lock into place.

Aesthetic Pleasure

At Decoline Hybrid flooring, each board out of **20** is individually patterned with an authentic timber grain, delivering the most natural feel to your home.

Why SPC Flooring?

At Decoline, we understand the importance of your family's health. That's why our flooring comes equipped with an anti-bacterial shield. Your family will love the luxurious feel, and authentic look of Decoline SPC flooring. They will believe they are walking on real hardwood timber. This authentic 7mm plank comes with 20 different pattern repeats that will look the most natural in the market. Decoline SPC flooring comes with a 30-year manufacturer's guarantee and is available in a variety of colours and designs.

SPC Hybrid Flooring

The Herringbone SPC Hybrid Flooring

The Herringbone flooring is a revolutionary floor system that has a lot of pattern repeats and is a very durable and resilient flooring option amongst Australian households. It has all the advantages that hybrid flooring is celebrated for; such as its high scratch resistance and waterproof properties.
